

U.S. Department of Justice (DOJ) Enterprise-Wide Cybersecurity Program Blanket Purchase Agreement (BPA)

Introducing DOJ's Cybersecurity BPA

As the pace of cybersecurity threats increases, government agencies need timely access to high-quality services that can help them secure their organization and data. The DOJ Cybersecurity BPA provides DOJ (at no-fee) and other federal agencies with access to **SHG Alliance, LLC**, a cybersecurity contractor, pre-vetted by DOJ, with the track record and experience to help you secure your mission. The DOJ Cybersecurity BPA provides you with long-term planning, customizable ordering capabilities, and rapid fulfillment to help you meet your agency's cybersecurity goals.

Why You Should Consider the DOJ Cybersecurity BPA

The BPA's comprehensive scope is a launchpad for broad or niche cybersecurity requirements, including program management, information assurance, compliance support, security operations, cybersecurity engineering, cloud security, identity management, insider threat, supply chain risk management, cyber training, and more.

Contract Features	Contract Benefits
No contract ordering fee for DOJ agencies.	Save money by eliminating fees typically associated with external contract vehicles, such as Alliant 2, CIOSP3, and others.
Five-year base period and one, five-year option period.	Enable long-term planning for large scale, complex program requirements.
Comprehensive Cybersecurity and IT scope.	Establish a foundation to meet practically any cybersecurity and IT requirement for your program.
Multiple contract types: Fixed price, T&M, and labor hour.	Have the flexibility to choose the contract type that best meets your budget and needs.
No protests on orders under \$10M (exceptions apply).	Reduce or eliminate the risk of protests ; enable rapid order award for optimal program success.
SHG Alliance is a qualified SDVOSB service provider.	Meet your SDVOSB set-aside goals , support veterans, and receive high-quality cybersecurity services.

Why SHG Alliance?

SHG Alliance is a joint venture established between The Ventura Group and eMentum, Inc. SHG Alliance brings decades of cybersecurity experience delivered across the federal government, including over 15 years supporting DOJ. Our combined capabilities embody service excellence through industry-recognized certifications, including CMMI Level 3, ISO 9000, ISO 20000, and more. We deliver a wide range of cybersecurity services that enable Federal agencies to achieve their mission and cybersecurity objectives.
